

Phoseon Technology Announces New Web Site Design

Hillsboro, Oregon (December 21, 2011) Phoseon launched its web site www.phoseon.com on Monday, December 19, 2011, with a dynamic, new look. The new Phoseon website provides online visitors with dramatic improvements in navigation, appearance and content.

The online visitor has immediate access to the web site's UV LED curing products, applications, technology, resources and company information.

Enhancements to the web site include:

- Improved Navigation - Web pages work in intuitive and consistent ways, making it easier for visitors to find what they are looking for and know where they are within the web site.
- Improved Appearance - Enhanced graphics and the new page layouts provide visitors with an improved user experience.
- Content - The new web site is designed to improve accessibility to Phoseon's wide array of UV LED curing products, applications, technology, and company information.

While the appearance and high-level organization of the web site are enhanced, the website will be located at the same address www.phoseon.com.
