

# Pittcon 2018 Conference & Expo

## *Press Release*

### **Phoseon Technology Exhibits Solid State Solutions for Life Sciences at Pittcon 2018**

***Visit Phoseon booth 1764 to learn more about innovative solid state solutions  
for life sciences applications***

Hillsboro, Oregon (January 22, 2018) - Phoseon will present the latest solid state solutions for life sciences applications at the upcoming Pittcon 2018 conference and exhibit in Orlando, FL. Visit our booth (1764) to learn how Phoseon brings its expertise in solid state light sources to chromatography and spectroscopy applications. Phoseon's KeyView™ is the ideal choice for life sciences applications due to the compact size, stable output, immediate operation and long lifetime. Users of KeyView products can cover a variety of wavelengths while taking advantage of the superior performance and reliable technology.

Learn how Phoseon's engineering team brings expertise in solid state optical detectors. KeyView applies the advantages of solid-state light sources to chromatography and spectroscopy instruments. KeyView products leverage Phoseon's SLM™ technology to improve both performance and ease-of-use over traditional light sources like deuterium, tungsten, and xenon lamps. LEDs are inherently low-noise, stable, cool and controllable. They turn on in milliseconds to full brightness and last for greater than 10,000 hours.

Pittcon 2018 will be held at Orange County Convention Center in Orlando, FL on February 26 - March 1. Pittcon is the world's leading annual conference and exposition on laboratory science taking place this year. Stop by booth 5004 to discover why Phoseon is the premier partner to solve new challenges in life sciences instruments, healthcare, and advanced imaging.

#### **About Phoseon Technology**

In 2002, Phoseon Technology pioneered the use of LED technology for UV curing applications, and has recently expanded into Life Sciences. As the world leader in providing UV LED solutions, Phoseon engineers patented LED technology to deliver rugged, high-performance products for application specific needs. The company is focused 100% on LED technology and provides worldwide sales and support capabilities.
