

Coating Show 2018

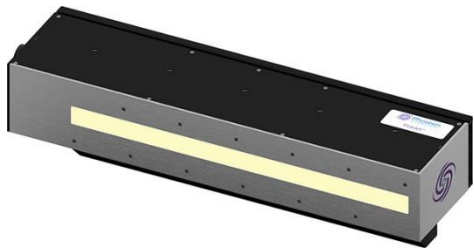

Press Release

SYRC Displays Phoseon Technology UV LED Curing Solutions at the Coating Show 2018

Visit booth J213 to learn more about LED curing for coating applications

Hillsboro, Oregon (February 28, 2018) - SYRC will showcase the latest UV LED curing solutions, by Phoseon Technology, for coating applications at the upcoming Coating Show 2018 in Incheon, Korea. Visit the Phoseon exhibit, booth J213, to learn how Phoseon LED technology is a perfect fit for

Phoseon FireJet™ FJ601

coating applications due to the compact size, ease of integration, and high intensity output achieved through optimized LED thermal management. Users of Phoseon LED curing systems can process a variety of materials, including thin and heat-sensitive substrates, at maximum production speeds with low-input power.

Coating Show 2018 will take place at Songdo Convensia on March 28-30 in Incheon, Korea. It will showcase a wide variety of chemicals, materials, films and equipment for coatings-related technology and applications.

About Phoseon Technology

Since 2002, Phoseon Technology pioneered the use of LED technology for Life Sciences and Industrial Curing. Through our relentless innovation, we deliver high performance, reliable and patented LED based solutions. Our strong focus on customer collaboration has resulted in world-wide market leadership position and presence. Phoseon is an ISO9001 certified company manufacturing award winning products. We uniquely focus 100% on LED technology therefore ensuring superior reliability, business economics, and environmental benefits.
