Phoseon Technology Exhibits UV LED Curing Solutions at APPPEXPO 2018

*Visit the Phoseon booth 2H-B1504 to learn more about
LED curing for digital printing applications*

Hillsboro, Oregon (March 2, 2018) - Phoseon will showcase the latest UV LED curing solutions for digital printing applications at the upcoming APPPEXPO 2018 event in Shanghai, China. Visit the Phoseon exhibit, booth 2H-B1504, to learn how Phoseon LED technology is a perfect fit for printing applications due to the compact size, ease of integration, and high intensity output achieved through optimized LED thermal management. Users of Phoseon LED curing systems can process a variety of materials, including thin and heat-sensitive substrates, at maximum production speeds with low-input power.

Phoseon FireEdge™ FE400,
FireLine™ FL400

APPPEXPO 2018 will take place at the New International Expo Centre on March 28-31 in Shanghai, China. It will showcase a wide variety of industry-related digital printing equipment and supplies, manufacturing machinery, and drying and curing equipment associated with this sector.

About Phoseon Technology

Since 2002, Phoseon Technology pioneered the use of LED technology for Life Sciences and Industrial Curing. Through our relentless innovation, we deliver high performance, reliable and patented LED based solutions. Our strong focus on customer collaboration has resulted in world-wide market leadership position and presence. Phoseon is an ISO9001 certified company manufacturing award winning products. We uniquely focus 100% on LED technology therefore ensuring superior reliability, business economics, and environmental benefits.
