## Press Release

### Phoseon Presents “UV Curing Using LED Technology” at Deco 2018

*Visit booth 105 to learn more about LED curing for decorative printing applications*

Hillsboro, Oregon (March 7, 2018) - Phoseon will showcase the latest UV LED curing solutions for decorative printing applications at the upcoming Deco 2018 event in Columbus, OH. Visit the Phoseon exhibit, booth 105, to learn how Phoseon LED technology is a perfect fit for printing applications due to the compact size, ease of integration, and high intensity output achieved through optimized LED thermal management. Users of Phoseon LED curing systems can process a variety of materials, including thin and heat-sensitive substrates, at maximum production speeds with low-input power.

Phoseon FireLine™ FL200  
Water-cooled Light Source

Mike Higgins, Director of Sales—Americas, will present “UV Curing Using LED Technology” at 4:15 p.m. on Saturday, April 7. Mr. Higgins will discuss the use of LED technology in the organic decorating process.

“Direct to container printing is becoming more realistic due in part to high power, low heat LED curing technology as well as major advancements in LED curable inks and print engine technology” says Mr. Higgins. “The compact nature of UV LED lamps allows them to be mounted in tight spaces very close to the substrate. This makes printing directly on the container, even cylindrical objects, a reality. Removing the label from the manufacturing process significantly reduces overall manufacturing costs and thus many in the industry are heading this direction.”

Phoseon FireJet™ FJ100  
Air-cooled Light Source

Deco 2018 will take place on April 7-9 at the Hilton Easton in Columbus, OH. It will showcase a wide variety of industry-related equipment for label, screen and inkjet printers, manufacturing machinery, drying and curing equipment associated with this sector.

#### About Phoseon Technology

Since 2002, Phoseon Technology pioneered the use of LED technology for Life Sciences and Industrial Curing. Through our relentless innovation, we deliver high performance, reliable and patented LED based solutions. Our strong focus on customer collaboration has resulted in world-wide market leadership position and presence. Phoseon is an ISO9001 certified company manufacturing award winning products. We uniquely focus 100% on LED technology therefore ensuring superior reliability, business economics, and environmental benefits.
