Phoseon Technology Exhibits Solid State Solutions for Life Sciences at INTERPHEX 2018

*Visit Phoseon booth 3868 to learn more about innovative solid state solutions
for life sciences applications*

Hillsboro, Oregon (March 16, 2018) - Phoseon will present the latest solid state solutions for life sciences applications at the upcoming INTERPHEX 2018 conference and exhibit in New York, NY. Visit our booth (3868) to learn how Phoseon brings its expertise in solid state light sources to life sciences applications. Phoseon's KeyPro™ high-intensity decontamination system benefits RNA researchers and lab managers by saving time and money, compared to existing chemical and heat methods. LEDs are inherently low-noise, stable, cool and controllable. Utilizing Phoseon's patented SLM™ LED technology enables the KeyPro system to increase lab productivity. Complete inactivation of laboratory contaminants, including the hard-target, RNase A, can be accomplished by the KeyPro system in under five minutes and at fraction of the cost of traditional methods. They turn on in milliseconds to full brightness and last for greater than 10,000 hours.

KeyPro™ KP100
Decontamination System

For chromatography and spectroscopy applications, KeyView™ is the ideal choice due to the compact size, stable output, immediate operation and long lifetime. Users of KeyView products can cover a variety of wavelengths while taking advantage of the superior performance and reliability.

INTERPHEX will take place April 17-19 at the Javits Center in New York, NY. INTERPHEX is the premier pharmaceutical, biotechnology, and device development and manufacturing event where you can “Experience Science through Commercialization”. Stop by booth 3868

to discover why Phoseon is the premier partner to solve new challenges in life sciences instruments, healthcare, and advanced imaging.

About Phoseon Technology

Since 2002, Phoseon Technology pioneered the use of LED technology for Life Sciences and Industrial Curing. Through our relentless innovation, we deliver high performance, reliable and patented LED based solutions. Our strong focus on customer collaboration has resulted in world-wide market leadership position and presence. Phoseon is an ISO9001 certified company manufacturing award winning products. We uniquely focus 100% on LED technology therefore ensuring superior reliability, business economics, and environmental benefits.
