Press Release

Phoseon Technology Exhibits LED Curing Solutions at PaintExpo 2018

Visit Phoseon at Hall 2/Stand 2602 to learn more about UV LED curing for coating applications

Hillsboro, Oregon (March 16, 2018) - Phoseon will showcase the latest UV LED curing solutions for coating applications at the upcoming PaintExpo 2018 event in Karlsruhe, Germany. Visit the Phoseon exhibit, Hall 2/Stand 2602, to learn how Phoseon LED technology is a perfect fit for coating applications due to the compact size, ease of integration, and high intensity output achieved through optimized LED thermal management. Users of Phoseon LED curing systems can process a variety of materials, including thin and heat-sensitive substrates, at maximum production speeds with low-input power.

Phoseon FireEdge™ FE400
Air-cooled Light Source

PaintExpo 2018 will take place April 17-20 at the Karlsruhe Exhibition Centre in Karlsruhe, Germany. It will showcase a variety of industry-related equipment for coating and adhesives, manufacturing machinery, and drying and curing equipment associated with this sector.

About Phoseon Technology

Since 2002, Phoseon Technology pioneered the use of LED technology for Life Sciences and Industrial Curing. Through our relentless innovation, we deliver high performance, reliable and patented LED based solutions. Our strong focus on customer collaboration has resulted in world-wide market leadership position and presence. Phoseon is an ISO9001 certified company manufacturing award winning products. We uniquely focus 100% on LED technology therefore ensuring superior reliability, business economics, and environmental benefits.
