

# Harper Roadshow— Philadelphia, PA 2018

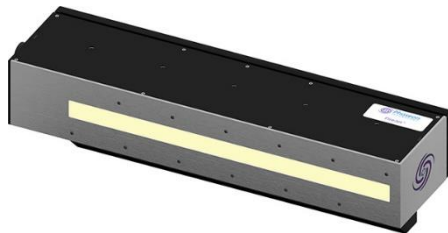

## Press Release

### Phoseon Technology Exhibits LED Curing Solutions at Harper Roadshow – Philadelphia, PA

*Visit the Phoseon exhibit to learn more about UV LED curing  
for flexographic printing applications*

Hillsboro, Oregon (May 14, 2018) - Phoseon will showcase the latest UV LED curing solutions for flexo printing applications at the upcoming Harper Expo & Solutions Tour in Philadelphia, PA. Visit the expo to learn how Phoseon LED technology is a perfect fit for flexo printing due to the compact size, ease of integration, and high energy density achieved through optimized LED thermal management.

*FireJet™ FJ6001  
LED Light Source*

Users of Phoseon LED curing systems improve cure and adhesion to thin and heat-sensitive substrates at maximum production speeds with low-input power. These benefits can lead to increased press uptime, greater throughput, and energy savings. Phoseon will highlight the FJ601, air-cooled LED curing lamp specifically designed for retrofit of your existing flexo press.

This is the third stop of the HarperExpo & Solutions Tour of 2018, in Philadelphia, PA at the DoubleTree by Hilton Philadelphia Valley Forge and will take place June 14, 2018. This year the tour will bring printers & converters insightful solutions to their

current pressroom challenges they face on a daily basis. Phoseon UV LED solves one of the longest running pressroom challenges, dated mercury UV curing lamps.

#### About Phoseon Technology

Since 2002, Phoseon Technology pioneered the use of LED technology for Life Sciences and Industrial Curing. Through our relentless innovation, we deliver high performance, reliable and patented LED based solutions. Our strong focus on customer collaboration has resulted in world-wide market leadership position and presence. Phoseon is an ISO9001 certified company manufacturing award winning products. We uniquely focus 100% on LED technology therefore ensuring superior reliability, business economics, and environmental benefits.
