

Assembly & Automation Technology 2018

Press Release

Phoseon Exhibits UV LED Curing at Assembly & Automation Technology 2018

*Visit Phoseon at stand 9D46 to learn more about UV LED curing
for coating & adhesive applications*

Hillsboro, Oregon (May 21, 2018) - Phoseon will showcase the latest UV LED curing solutions for coating and adhesive applications at the upcoming Assembly & Automation Technology 2018 event in

Phoseon FireLine™ FL200
Water-cooled Light Source

Bangkok, Thailand. Visit the Phoseon exhibit, 9D46, to learn how Phoseon LED technology is a perfect fit for coating & adhesive applications due to the compact size, ease of integration, and high intensity output achieved through optimized LED thermal management. Users of Phoseon LED curing systems can process a variety of materials, including thin and heat-sensitive substrates, at maximum production speeds with low-input power.

Phoseon FireEdge™ FE400
Air-cooled Light Source

Assembly & Automation Technology 2018 will take place June 20-23 in Bangkok, Thailand. The exhibit will showcase industrial automation systems, assembly technology, manufacturing machinery, and drying and curing equipment that are associated with this sector.

About Phoseon Technology

Since 2002, Phoseon Technology pioneered the use of LED technology for Life Sciences and Industrial Curing. Through our relentless innovation, we deliver high performance, reliable and patented LED based solutions. Our strong focus on customer collaboration has resulted in world-wide market leadership position and presence. Phoseon is an ISO9001 certified company manufacturing award winning products. We uniquely focus 100% on LED technology therefore ensuring superior reliability, business economics, and environmental benefits.
