

# LED & OLED Expo 2018

## Press Release

### Phoseon Technology Exhibits LED Curing Solutions at LED & OLED Expo 2018

*Visit the Phoseon stand G28 to learn more about LED curing for adhesive applications*

Hillsboro, Oregon (May 31, 2018) - Phoseon will showcase the latest UV LED curing solutions for adhesive applications at the upcoming LED & OLED Expo 2017 event in Seoul, Korea. Visit the

Phoseon FireLine™ FL400  
Light Source

Phoseon exhibit, at stand G28, to learn how Phoseon LED technology is a perfect fit for adhesive and coating applications due to the compact size, ease of integration, and high intensity output achieved through optimized LED thermal management. Users of Phoseon LED curing systems can process a variety of materials, including thin and heat-sensitive substrates, at maximum production speeds with low-input power.

LED & OLED Expo 2018 will take place at the Korea International Exhibition Center (KINTEX), June 26-28 in Seoul, Korea. The exhibit will showcase LED and OLED lighting, components, manufacturing equipment, and drying and curing equipment associated with this sector. The Int'l Laser Expo and LED Industry Forum will run concurrently with the LED & OLED Expo 2018.

#### **About Phoseon Technology**

Since 2002, Phoseon Technology pioneered the use of LED technology for Life Sciences and Industrial Curing. Through our relentless innovation, we deliver high performance, reliable and patented LED based solutions. Our strong focus on customer collaboration has resulted in world-wide market leadership position and presence. Phoseon is an ISO9001 certified company manufacturing award winning products. We uniquely focus 100% on LED technology therefore ensuring superior reliability, business economics, and environmental benefits.
