

# New GM for Life Sciences

## Press Release

### Phoseon Technology Welcomes Jeffrey Harris as General Manager for Life Sciences

Hillsboro, Oregon (February 19, 2019) - Phoseon Technology today announced the appointment of Jeffrey Harris as their new General Manager for Life Sciences. Jeffrey's team will be responsible for product strategy, business development and global sales activities for the life sciences division.

Jeffrey comes to Phoseon with over 20 years of experience in sales, product development and applications experience in life science industries, and over 25 years of experience in optics and imaging. He has moved from performing direct sales to regional sales management, distributor sales management, and international sales and OEM channel management, along with product development and customizations for biotech, pharma, and academic life science customers. His background in biology and optics enable deep understanding of these complex applications.

Prior to joining Phoseon Technology, Jeffrey was Director of Product Management and Global Sales Director at Lumen Dynamics (Excelitas Technology), and the International OEM Manager and International Business Development Manager at Photometrics. Jeffrey holds a Bachelor's of Science degree in Biology with concentration in Cell and Molecular Biology from Duke University.

"Jeffrey's role will be to build on Phoseon's market leadership position and grow into new segments where our Semiconductor Light Matrix (SLM) technology can provide compelling solutions for life sciences," commented Bill Cortelyou, President and CEO at Phoseon. "His global sales experience and background in biology and optics combined with Phoseon's expertise in UV LED technology will lead to exciting new growth opportunities."

Jeffrey will be based at Phoseon's world headquarters in Hillsboro Oregon.

#### About Phoseon Technology

Since 2002, Phoseon Technology pioneered the use of LED technology for Life Sciences and Industrial Curing. Through our relentless innovation, we deliver high performance, reliable and patented LED based solutions.
