Phoseon Technology Exhibits LED Curing Solutions at the FTA Fall Conference 2021

Visit the Phoseon exhibit, Booth 307, to learn more about LED curing for flexographic printing applications

Hillsboro, Oregon (September 20, 2021) - Phoseon will showcase the latest UV LED curing solutions for flexographic printing applications at the upcoming FTA Fall Conference 2021 event. Visit the Phoseon exhibit, booth 307, to learn how Phoseon LED technology is a perfect fit for flexographic applications due to the ease of integration and high intensity output achieved through optimized LED thermal management. Users of Phoseon LED curing systems can process a variety of materials, including thin and heat-sensitive substrates, at maximum production speeds with low-input power.

Nexus ONE™ UV LED air-cooled curing solution for flexographic presses

The Nexus ONE™, is a self-contained air-cooled UV LED curing light source for flexographic applications, delivering substantial curing energy, with the industry's first full five-year warranty. Nexus ONE light sources are easily integrated into new and existing presses, requiring minimal maintenance; the lamp's air filter and protective glass window are easily changed in the field. The Nexus ONE is available in lamp lengths that cover the gamut of narrow and mid-web presses, with curing speeds of up to 200 meters per minute, by means of 65 Watts per LED array segment.

The FTA Fall Conference 2021 will take place at the Hilton Dallas Frisco Hotel & Convention Center on October 3-6 in Frisco, Texas. The Fall Conference has a widely held reputation for delivering technical content from industry experts who merge the art with the science. For more than 20 years, flexographers have attended Fall Conference to enhance their professional development.

About Phoseon Technology

Since 2002, Phoseon Technology pioneered the use of LED technology for Life Sciences and Industrial Curing. Through our relentless innovation, we deliver high performance, reliable and patented LED based solutions. Our strong focus on customer collaboration has resulted in world-wide market leadership position and presence. Phoseon is an ISO9001 certified company manufacturing award winning products that are covered by more than 300 patents worldwide. We uniquely focus 100% on LED technology therefore ensuring superior reliability, business economics, and environmental benefits.
