

RadTech UV+EB Technology Conference 2022

Press Release

Phoseon Features the Latest Developments for UV LED Curing at RadTech's UV+EB Technology Conference 2022

Visit Phoseon at booth 415 to learn more about our UV LED curing capabilities

Hillsboro, Oregon (April 6, 2022) - Phoseon will feature the latest UV LED curing solutions for graphic arts and industrial applications at RadTech's 2022 UV+EB Technology Conference in Orlando, FL. Visit Phoseon at booth 415 to learn why our strategic partnerships with UV chemistry suppliers are essential to choosing an LED curing solution designed to meet your needs.

When investing in a new technology, there can be a steep learning curve along with implementation challenges. Working with Phoseon will give you the best chance for success and true *Return On Investment*. Phoseon has over 20 years of experience enabling the transition from traditional UV curing systems to UV LED. Phoseon will work with you to determine the best lamp technology for your application. Above all, Phoseon's experienced field sales and application engineers are available to visit your facility and review whether LED is the right next step for your business.

Mike Higgins, Director of Sales—Americas, will present, "ONE" during the **New Product Debut II** session (3:00-5:00PM) on Wednesday, May 11. This is one presentation you should not miss if you want to advance your production process, create a safer workplace, and save money.

[RadTech UV&EB Technology Expo & Conference 2022](#) will take place May 9-12 at the Hyatt Regency Orlando, in Orlando, FL. The event is dedicated to the educational, technical, and scientific advancement of ultraviolet (UV) and electron beam (EB) technologies.

About Phoseon Technology

Since 2002, Phoseon Technology pioneered the use of LED technology for Life Sciences and Industrial Curing. Through our relentless innovation, we deliver high performance, reliable and patented LED based solutions. Our strong focus on customer collaboration has resulted in world-wide market leadership position and presence. Phoseon is an ISO9001 certified company manufacturing award winning products that are covered by more than 300 patents worldwide. We uniquely focus 100% on LED technology therefore ensuring superior reliability, business economics, and environmental benefits.
