

Press Release

Phoseon Shines a Light on the Bright Future for UV LED Curing at RadTech's Big Ideas Conference 2023

Visit Phoseon at booth 2 to learn more about our UV LED curing capabilities

Hillsboro, Oregon (February 23, 2023) - Phoseon will feature the latest UV LED curing solutions for coatings, adhesives and graphic arts at RadTech's 2023 UV+EB Big Ideas Conference in San Diego, CA.

Visit Mike Higgins and Ryan Leone at booth 2 to learn why our strategic partnerships with UV chemistry suppliers are essential to choosing an LED curing solution designed to meet your needs.

Curing Light Source*

When investing in a new technology, there can be a steep learning curve along with implementation challenges. Working with Phoseon will give you the best chance for success and maximum return on investment. Phoseon has over 20 years of experience enabling the transition from traditional thermal, or UV curing systems to UV LED. Phoseon will work with you to determine the best lamp technology for your application. Above all, Phoseon's experienced field sales and application engineers are available to visit your facility and determine whether LED is the right next step for your business.

Phoseon's Director of Sales, Mike Higgins, will present, "Illuminate Production Dark Spots with LED" during the **BIG IDEAS in UV LED** session (8:00-10:00AM) on Tuesday, March 7. Learn more about how Phoseon has helped increase productivity, reduce manufacturing footprint and generate real ROI in less than 1 year. Upgrading to LED is allowing for companies to take processes that once took hours and reduce them to seconds. This eco-friendly technology has immediate positive impact on bottom line and workplace safety.

[RadTech Big Ideas Conference 2023](#) will take place March 6-8 at the Wyndham Bayside, in San Diego, CA. The event is dedicated to the educational, technical and scientific advancement of ultraviolet (UV) and electron beam (EB) technologies.

About Phoseon Technology

Since 2002, Phoseon Technology pioneered the use of LED technology for Life Sciences and Industrial Curing. Through our relentless innovation, we deliver high performance, reliable and patented LED based solutions. Our strong focus on customer collaboration has resulted in world-wide market leadership position and presence. Phoseon is an ISO9001 certified company manufacturing award winning products that are covered by more than 300 patents worldwide. We uniquely focus 100% on LED technology therefore ensuring superior reliability, business economics, and environmental benefits.
